Hannah Ashley (hashley@wcupa.edu), Coordinator

The purpose of this program is to equip future professionals to work in urban communities and with agencies and organizations that particularly focus on urban youth, including but not limited to schools, social service agencies, and youth and community development organizations. Through an experiential approach to learning and a philosophy of empowerment, the program will help WCU students to understand the complex context of American cities, the strengths and capabilities of families of diverse backgrounds, and the implications of public policy for large urban systems.

The minor will enable students who are preparing for urban careers to develop a deep understanding of the economic, social, cultural, and political context of urban social systems and community factors that affect youth. The Youth Empowerment and Urban Studies (YES) minor is in the liberal studies program and open to all students in every college.
