SLP: SPEECH-LANGUAGE PATHOLOGY

College of Health Sciences

Courses

This course is a survey of research methods in speech-language pathology. The overall goal of this course is to cultivate students’ understanding of the scientific method. Through readings, activities, lectures, and discussions, students will learn how research is not only relevant but integral to successful clinical practices/treatments.
Typically offered in Fall.

SLP 511. Child Language Disorders I: 0 To 5 Years. 3 Credits.
Explores disorders of early language acquisition and factors that may place infants and toddlers at risk for normal communication development. Assessment and intervention are examined from the perspective of developmental, behavioral, team-based, and family-centered frameworks.

SLP 512. Child Language Disorders II: School Age - Adolescent. 3 Credits.
This course addresses language disorders at school age, including the impact of oral language impairments on the acquisition of literacy skills by speakers of general American English, speakers of dialects, or English language learners. It also addresses strategies for prevention, identification, diagnosis, and intervention within a model of interdisciplinary collaboration that emphasizes cultural sensitivity and other standards of effective collaboration.
Consent: Permission of the Department required to add.
Typically offered in Spring.

SLP 515. Adult Neurogenic Speech Disorders. 2 Credits.
This course provides students with fundamental knowledge of the nature, evaluation, and management of acquired motor speech disorders - including the dysarthrias, apraxia of speech, and other neurologic speech disturbances.
Typically offered in Fall.

SLP 516. Adult Neurogenic Language and Cognitive Disorders. 3 Credits.
The course provides a theoretical and practical orientation to the area of acquired neurogenic communication disorders, including aphasia and acquired cognitive-communication disorders associated with traumatic brain injury, right hemisphere damage, dementia, and other neurogenic conditions. It will provide neurological and theoretical bases for the principles of diagnosis and management of persons with acquired communication disorders. Evidence-based management approaches will be presented and discussed along with contemporary models.
Typically offered in Spring.

SLP 521. Assistive Technologies for Communication and Participation. 3 Credits.
This course will provide a broad overview of normal and atypical communication development with a special emphasis on aspects relevant to teachers. Specific importance will be given to the various types of communication disorders, their characteristics, and the impact of high and low level technology, specifically, augmentative and alternative communication systems and assistive technologies to support the child with disabilities in the K-12 classroom. This will be accomplished through a practical, project-based, and interactive online learning environment. Distance education offering may be available.
Cross listed courses EDA 521, SLP 521.

SLP 522. Voice Disorders. 3 Credits.
Examination of classification, etiology, diagnosis, and therapy for functional, organic, and psychological voice disorders.

SLP 524. Fluency Disorders. 3 Credits.
Consideration of the nature, causes, diagnosis, and treatment of stuttering and related disorders of speech flow. Critical review of pertinent research.

SLP 526. Clinical Articulation Phonology. 3 Credits.
Acoustic and physiological mechanisms underlying speech sound production; theoretical models and evidence-based practices associated with clinical management of disordered speech sound production.

SLP 543. Aural Rehabilitation. 3 Credits.
The purpose of this course is to develop understanding of evaluative and therapeutic interventions used in improving communication ability and for individuals of all ages with hearing loss and their family members. Distance education offering may be available.
Typically offered in Fall.

SLP 545. Augmentative and Alternative Communication. 3 Credits.
This course is a three-unit graduate required course. The purpose of this course is to develop an understanding of information related to the evidence, strategies, techniques, and issues that are unique to the field of augmentative and alternative communication (AAC). The class includes an in-depth review of the assessment process as well as the AAC needs of individuals with developmental and acquired disabilities across the age continuum. Hands-on experience with various methods of AAC strategies and devices will provide a clearer understanding of AAC intervention.
Consent: Permission of the Department required to add.
Typically offered in Summer.

SLP 551. Graduate Clinical Practicum. 1.5-3 Credits.
Supervised practice in the Speech and Hearing Clinic. Designed to increase diagnostic and therapeutic skills with children and adults who have communication disorders.
Consent: Permission of the Department required to add.
Repeatable for Credit.

SLP 552. Medical Affiliation Practicum. 3-6 Credits.
Supervised practice in an affiliated clinic or school. Designed to increase diagnostic and therapeutic skills with children and adults who have communication disorders.
Pre / Co requisites: SLP 552 requires a prerequisite of SLP 551.
Consent: Permission of the Department required to add.
Typically offered in Fall, Spring & Summer.

SLP 553. School - based Affiliation Practicum. 3-9 Credits.
Supervised practice in an affiliated clinic. Designed to increase diagnostic and therapeutic skills with children and adults who have communication disorders.
Pre / Co requisites: SLP 553 requires a prerequisite of 8 or better in all SLP 551 practica and permission of the department.
Consent: Permission of the Department required to add.

SLP 560. Seminar In Speech Pathology. 1-3 Credits.
Selected theoretical and clinical areas of speech pathology and related disciplines. Topics vary each semester according to research developments and student needs.
Repeatable for Credit.

SLP 565. Communicative Enhancement for Individuals with Autism Spectrum Disorders. 3 Credits.
In the framework of evidence-based practice, this course addresses the principles and strategies involved in the assessment and enhancement of communication skills needed by individuals with autism spectrum disorders to express their intentions and to meet the communicative demands of the environment. Also considered is the role of communicative enhancement in the prevention of behavior problems and in the design of positive behavior support plans.

SLP 570. School Language/Speech/Hearing Programs. 3 Credits.
Orientation to and observation of the organization, administration, and operation of school speech-language and hearing programs (preschool through grade 12).

SLP 575. Medical Speech Pathology. 3 Credits.
This course is designed to provide graduate students with an introduction to terminology, documentation, types of insurance, and interactions with other medical disciplines, as well as frequently observed disorders, assessments, and interventions associated with pediatric and adult patients in a medical setting (i.e. acute care hospitals, skilled nursing facilities, long term care facilities). The course is also designed to expose the student to the code of ethics and scope of practice within a medical setting as determined by the American Speech and Hearing Association (ASHA).

SLP 582. Dysphagia. 3 Credits.
This course prepares students to identify anatomical and neurological structures in swallowing, as well as assess, treat, and modify diets for patients with normal and abnormal swallowing patterns.

SLP 590. Independent Study. 1-3 Credits.
Individualized research projects, reports, and/or readings in speech pathology or audiology under faculty supervision.
Consent: Permission of the Department required to add.
SLP 598. Workshop in Communicative Disorders. 3 Credits.
Contact department for more information about this course.
Distance education offering may be available.
Typically offered in Fall, Spring, Summer, Winter.

SLP 610. Thesis. 1-6 Credits.
Contact department for more information about this course.
