College of Health Sciences

Courses

ENV 102. Humans and the Environment. 3 Credits.
A study of the ability of humans to survive and maintain their life quality considering the limited resources and recycling capacity of planet Earth. Note: Only one of the following courses can be completed for credit: SCB 102, ENV 102, or ESS 102.
Gen Ed Attribute: Interdisciplinary Requirement.
Typically offered in Fall, Spring, and Winter.
Cross listed courses SCB 102, ENV 102, ESS 102.

ENV 199. Transfer Credits. 1-10 Credits.
Transfer Credits.
Repeatable for Credit.

ENV 230. Hazardous Waste Operations and Emergency Response. 3 Credits.
Provides students with the training required by the Occupational Safety and Health Administration and the Environmental Protection Agency to work sites where hazardous wastes and/or materials may be stored, spilled, transported or used.
Typically offered in Summer.

ENV 324. Environmental Sustainability. 3-4 Credits.
This course examines environmental sustainability through the interconnected lenses of social equity, economic vitality, and environmental protection. Students will identify solutions for unsustainable patterns and develop innovative thinking skills related to resource consumption, biodiversity conservation, human health and education, environmental justice, and the sustainable balance of all involved. Attention to these factors paves the way for humans and the environment and economy to thrive together rather than compete or merely survive.
Gen Ed Attribute: Speaking Emphasis.
Typically offered in Spring.

ENV 435. Environmental Health Workshop. 1-6 Credits.
Special workshops on contemporary environmental health issues. Topics announced at time of offering.
Typically offered in Fall & Spring.
Repeatable for Credit.

ENV 445. Risk Assessment. 3 Credits.
An examination of human health and ecological risk assessment with emphasis on exposure estimation.
Pre / Co requisites: ENV 445 requires prerequisite of ENV 102.
Typically offered in Spring.

ENV 447. Environmental Regulations. 3 Credits.
Prepares students for working with federal and Pennsylvania environmental regulations. Emphasizes use and development of Internet regulatory resources. Specific discussions and exercises related to various regulatory agencies are included.
Pre / Co requisites: ENV 447 requires prerequisite of ENV 102.
Typically offered in Fall.

ENV 450. Hazardous and Solid Waste. 3 Credits.
Sources, characteristics, and amounts of solid and hazardous wastes and their implications for human health. Methods of collection, handling, disposal, and recycling.
Pre / Co requisites: ENV 450 requires prerequisite of ENV 102.
Typically offered in Fall.

ENV 451. Environmental Toxicology. 3 Credits.
An investigation of the health problems caused by toxic substances in the workplace and in the general environment.
Pre / Co requisites: ENV 451 requires prerequisites of BIO 204 and ENV 102 and co-requisite of CHE 230.
Typically offered in Spring.

ENV 452. Industrial Hygiene I. 3 Credits.
This course is an investigation of the anticipation, recognition, evaluation and control of airborne and dermal health hazards in the workplace. Hazard communication and regulatory compliance are also addressed.
Pre / Co requisites: ENV 452 requires prerequisite of ENV 102.
Typically offered in Fall.

ENV 453. Occupational Safety. 3 Credits.
A study of the recognition, evaluation, and control of safety hazards in the work environment.
Pre / Co requisites: ENV 453 requires a prerequisite of ENV 102.
Typically offered in Spring.

ENV 455. Environmental Health Seminar. 3 Credits.
This course is an investigation of the anticipation, recognition, evaluation and control of ergonomic problems, noise, thermal stress, and radiation in the workplace. Worker training strategies related to occupational health and safety are also addressed.
Pre / Co requisites: ENV 455 requires prerequisite of senior environmental health majors only.
Gen Ed Attribute: Writing Emphasis.
Typically offered in Fall.

ENV 456. Environmental Health Internship. 3-12 Credits.
Field placement with an environmental health department in an industry, consulting firm, or government agency.
Pre / Co requisites: ENV 456 requires prerequisites of a minimum cumulative GPA of 2.50 and senior level Environmental Health major.
Typically offered in Fall, Spring & Summer.
Repeatable for Credit.

ENV 462. Water Quality and Health. 3 Credits.
An examination of the quality and quantity requirements of surface and subsurface water resources used for drinking water supplies. Laboratory included.
Pre / Co requisites: ENV 462 requires prerequisite of ENV 102.
Typically offered in Spring.

ENV 465. Bioterrorism, Bio-Crises, & Public Health. 3 Credits.
This course addresses the protection of the public’s health and the health of workers such as first responders from biological agents that cause disease and/or death. Communication and coping strategies, group interaction, case studies, and the use of Internet resources will be integrated with response strategies, measurement techniques, personal protection and decontamination procedures.

ENV 467. Emergency Preparedness. 3 Credits.
This course addresses emergency preparedness for schools, businesses, communities, and counties. Types of emergencies considered include natural disasters, failures of technology (spills, accidents and explosions) and acts of war or terrorism.

ENV 470. Occupational Safety & Health. 3 Credits.
A study of the recognition, evaluation, and control of safety hazards in the workplace.
Pre / Co requisites: ENV 470 requires prerequisite of ENV 102.
Typically offered in Spring.

ENV 474. Ecology. 3 Credits.
An examination of the relationship between human health and the environment, including human impacts on the environment and the sustainable balance of all involved. Topics will vary from year to year.

ENV 475. Environmental Regulations. 3 Credits.
Prepare students for working with federal and Pennsylvania environmental regulations. Emphasizes use and development of Internet regulatory resources. Specific discussions and exercises related to various regulatory agencies are included.
Pre / Co requisites: ENV 475 requires prerequisite of ENV 102.
Typically offered in Fall.

ENV 476. Environmental Toxicology. 3 Credits.
A study of the effects of toxic substances on human health and the environment.
Pre / Co requisites: ENV 476 requires prerequisite of ENV 102.
Typically offered in Spring.

ENV 477. Environmental Health Seminar. 3 Credits.
This course is designed to provide the opportunity to conduct a fundamental investigation of an environmental health issue and to allow for presentation of project results as a written manuscript and as a poster. Concepts of hypothesis formation, experimental design, data collection, data analysis, and interpretation of results are part of the in-depth investigation on topics of significance to the environmental health field. Topics will vary from year to year.
Pre / Co requisites: ENV 477 requires prerequisite of senior environmental health majors only.
Gen Ed Attribute: Speaking Emphasis.
Typically offered in Fall.

ENV 478. Emergency Preparedness. 3 Credits.
This course addresses emergency preparedness for schools, businesses, communities, and counties. Types of emergencies considered include natural disasters, failures of technology (spills, accidents and explosions) and acts of war or terrorism.

ENV 479. Bioterrorism, Bio-Crises, & Public Health. 3 Credits.
This course addresses the protection of the public’s health and the health of workers such as first responders from biological agents that cause disease and/or death. Communication and coping strategies, group interaction, case studies, and the use of Internet resources will be integrated with response strategies, measurement techniques, personal protection and decontamination procedures.

ENV 480. Hazardous Waste Operations and Emergency Response. 3 Credits.
Provides students with the training required by the Occupational Safety and Health Administration and the Environmental Protection Agency to work sites where hazardous wastes and/or materials may be stored, spilled, transported or used.
Typically offered in Summer.

ENV 481. Environmental Health Seminar. 3 Credits.
This course is designed to provide the opportunity to conduct a fundamental investigation of an environmental health issue and to allow for presentation of project results as a written manuscript and as a poster. Concepts of hypothesis formation, experimental design, data collection, data analysis, and interpretation of results are part of the in-depth investigation on topics of significance to the environmental health field. Topics will vary from year to year.
Pre / Co requisites: ENV 481 requires prerequisite of senior environmental health majors only.
Gen Ed Attribute: Writing Emphasis.
Typically offered in Fall.

ENV 499. Transfer Credits. 1-10 Credits.
Cross listed courses SCB 102, ENV 102, ESS 102.
Gen Ed Attribute: Interdisciplinary Requirement.
