

# MINOR IN GEOGRAPHY AND PLANNING

---

Students must complete a minimum of six credits of advanced standing coursework in their minor.\*

This minor provides a flexible geography focus that combines well with other majors. Clusters of courses may involve environmental geography, spatial technology, international courses, or courses especially suitable as preparation for social studies education, for example.

Additionally, a cluster of courses in planning allows students from other majors to acquire geography and planning skills and to expand their career possibilities to include such areas as land planning and management, conservation of resources, location of commerce and industry, and county or other local government services.
