## Accelerated B.S. Mathematics - Applied and Computational Mathematics to M.S. in Applied and Computational Mathematics Program

To be considered for the accelerated program, students must have attained (completed) 75 credits with a minimum of 24 mathematics credits. Students must have a minimum cumulative GPA of 3.00 including a minimum GPA of 3.00 for mathematics courses. Once admitted to the graduate program, graduate policies apply, including minimum GPA (3.00). See the Graduate Catalog for further details.

Students in the accelerated program can take up to 15 credits of graduate coursework to satisfy the B.S. program requirements. The course list below provides the approved graduate substitutions for undergraduate courses. The remaining graduate courses can be taken in place of free electives in the B.S. program.

Code	Title	Credits
<b>Major Requirements</b> <sup>1</sup>		
MAT 545	Real Analysis I <sup>2</sup>	3
or MAT 575	Complex Analysis I	
MAT 548	Industrial Mathematics - Continuous Models <sup>3</sup>	3
<b>Free Electives or Internship</b>		
The remaining 9 credits of graduate courses may be taken in place of Free Electives.		9
<sup>1</sup> MAT 500 and one of the Industrial Mathematics Practicum courses (MAT 555 or MAT 556) are waived for students in the accelerated program.		
<sup>2</sup> Choose one (but not both) of these substitutions since the B.S. program requires only one analysis class (real or complex). These courses are substitutions for MAT 441 and MAT 445.		
<sup>3</sup> MAT 548 is a graduate substitution for MAT 433.		

All math major courses must be passed with a C or better.

## Sample Course Plan

To track their individual degree progress, students are advised to access their Degree Progress Report (DPR) via myWCU regularly. For more

information, visit [wcupa.edu/DegreeProgressReport](http://wcupa.edu/DegreeProgressReport) (<http://wcupa.edu/degreeprogressreport/>).

The following is a sample suggested course sequence for this program; course offerings and availability are not guaranteed. Students should consult their academic advisor with any questions.
