

MINOR IN PHYSICS

College of the Sciences and Mathematics

Curriculum

The program can be used as technical preparation to complement work in other scientific or nonscientific areas, e.g., Business majors interested in careers in technologically oriented industries, majors interested in technical or scientific sales, English majors interested in technical writing, or Social Science majors interested in the area of energy and the environment.

Students must complete a minimum of six credits of advanced standing coursework in their minor.*

The program can be used as technical preparation to complement work in other scientific or nonscientific areas, e.g., Business majors interested in careers in technologically oriented industries, majors interested in technical or scientific sales, English majors interested in technical writing, or Social Science majors interested in the area of energy and the environment.

Code	Title	Credits
Required Courses		
Select one of the following sequences:		8
PHY 130 & PHY 140	General Physics I and General Physics II	
PHY 170 & PHY 180	Physics I and Physics II	
PHY 240	Introduction to Modern Physics	3
Select 8 credits in physics courses at the 250 level or above under advisement with the Department of Physics and Engineering.		8
Total Credits		19

*Advanced standing coursework is defined as any 300-level course or above and specific 200-level courses identified by the department.
